Industry Insights

The Software Development industry is witnessing a demand boom for skilled professionals in various sectors, including healthcare, retail, finance and entertainment. In fact, in 2023, the demand for Software Engineers rose by nearly 17% across all industries.

Skilled Software Development talent is also in high demand worldwide. This provides opportunities for professionals to work & collaborate with teams from diverse careers and geographical backgrounds.

According to the U.S. Bureau of Labor Statistics, Software Development jobs are projected to grow by 22% from 2019 to 2029, much faster than the average growth rate for all occupations.

AlmaBetter is gearing up to train and deploy the finest developers by providing best-in-class tech education through this Master's Degree, to cater to the continually increasing demand.
